Yeeeah no, that's not happening any time soon. Not after what happened.

Fascinating You cou dn't kill the Master, but you were perfectly happy to repeatedly murder your only remaining friend How can you justify this?
It's not like I didn't at least TRY to kill the Master...

Did you at least drop Jack somewhere safe? I mean You didn't exactly drop him in a city of Weeping Angels or something, d d you?

Perhaps you should check on Twilight. Doctor. How long has it been since you've seen her?

Well I was hoping I could drink myself in to a coma.
EGG NOG

the shadbro asked
How is keeping yourself away from everything REALLY helping you? Whenever you do that, you end depressed and lonely, and most likely do something stupid while drunk. Not a lot of self-help is there?
I've always been depressed and lonely. I'm just more honest about it now.
EGG NOG

Quick question do YOU think you need help? I don't know about you, but shooting and cutting out friends from your life isn't very healthy in my book, but you keep saying you don't want Twilight's help I think Twilight would want to help if she saw you now So tell me do you th nk you need help? If so, go seek it
... I'm beyond help.
EGG NOG

But doctor you're not a horrible person. A horrible person wouldn't, despite no inclination to help, go as far as you did to help scoota oo and her baby be reunited. You have great potential for help, even when you don't want to. And I don't think you're really addressing the problem here
"And that's how you live with yourself. Because once in awhile- on a whim, if the wind's in the right direction- you happen to be kind."
I should have listened to myself back then. Hah...
EGG NOG

How is being lonely supposed to help you? All it does is give you more time to think about all the things that have gone wrong. Isn't that why you started running in the first place? So you didn't have to think about the bad times?
Maybe it's about time I thought about them.
EGG NOG

I know you hate certa n ponies for various reasons, but all this hate, depression, lust, and rage that's inside of you is just feeding the Monster, and in time the Monster will be released on those you care for, can you carry on like this and know that everything your doing is just making the Monster stronger???
S'bout time I put that monster in a proper cage, yeah?
EGG NOG

Jaev sama asked
Have you ever had hallucinations during your drinking? If so, what kind? If you'd be kind enough to at least shed some light to us about what goes on in your mind during your drunken stupors... Please tell us the random things that occur, or the... sort of blissful things that push away the bad somewhat. No one said wishing out loud was bad, and you can trust us.
It just makes everything a fuzzy blank. I like that. Numbness. Hurts a lot less.

You wouldn't have to climb so high if you didn't fall so far in the first place
I slipped.
I didn't fall on purpose, but I keep tumbling down and down and down n' I can't find the ground...

asked
Ever given any thought as to why you've changed so much?
Wish I knew...
I just dunno...

Sir I do not think boozing till you pass out is the best solution to your current problem What do you think caused Jack's sudden change of attitude before you threw him out? it seemed rather out of character for him
Out of character? Nah, I let thousands die, including him. I betrayed his trust.

aarf, in my st.bruan asker
alow me to rephrase something you said before you got drunk "i dont care about you me or the universe in fact i rather watch you and the rest of the universe burn" then you shot him what you said was someth ng the master would say apparently your becoming more like the master and the master being more of a doctor then you
I don't know why I said that, it just slipped out.
I don't know...

You really think hiding is going to do you any good Doctor? It's not just the fact that you "killed" Jack He's going to come after you now Why wouldn't he? If not just for revenge, then to make sure you don't end the universe on a whim You no longer have the luxury of hiding anymore
Hey Doc are you worried at all of making an enemy of Jack? The guy does know more about you than just about anyone else Save for The Master of course Would he be able to use that knowledge to take revenge?
I know that, I know!

Danny

Doctor, while what you did was several levels of wrong, I'm not gonna shame you for shooting Jack. I WILL tell you however that your actions have already had consequences. You pushed Jack away, and now you have a new enemy. I hope you know what's coming for you now

foreveryoursmashed
Oh Doctor Do you even realize what you've done? You cast aside the only person who might have been able to understand or help you The only one in all the universe who could have been there for the rest of YOUR life You shot Jack in the head! Can you honestly even stand to look at yourself anymore?
No, I can't,
I can't even stand
being conscious...!

sparxemberwarp asked
Well Atleast you feel something about it, you wouldn't try to drown your sorrows otherwise I suppose you wouldn't want to talk to us about it right now? Hmmm I think you need some cheering up!
I'd rather just drown...

dreamp's ten answers asked
You did what was necessary Doctor Jack wou d have killed you- not exactly -but he would have harmed you so please don't harm yourself like this, you're better then this
No, stop trying to excuse what I did, please...

marave asked
I dare you to try and justify what you did to Jack. You could have talked to him, could have reasoned with him, knocked him out, wait for him to calm down, restrain him. But you killed him in the most painful way possible. And you know he's not dead. You've made an enemy who can't die. Someone who was your friend. He will find you. So I want you to try and say you did the most sane action. But whatever made you come to that decision, I think we all know the Doctor wouldn't have done that
...I CAN'T justify it...! Nothing about me has been sane lately!

I can't stand it...

What am I turning in to...?

Why, why, why...

If you drop dead right now no one would cry for you Not even Twil ght.

Doctor, do you believe that your life is better for having learned the Truth? You never used to be this miserable back when you still adventured. cared for peop e and nsked your life for others Whether you want to be the old you again or not, you've at least got to admit that ignorance was bliss.
I wish I never found the Truth...
Sniff

I don't feel any sympathy for you anymore, Doctor. You don't even deserve that name. You don't help people anymore, all you do is mess everything up. I can't wait for Jack to return, because we all know he will at some point.

doctor, don't you think you shou d just go and talk to someone, hell, anyone? i think if you just start talking to someone about this, it might just feel a bit better!
I think you should talk to someone Company is nice when you're miserable yes? Go talk to a stranger for all I care, just stop try ng to shoulder all that pain yourself, it can't be hea.thy
I thought...

Isn't there anyone you can just sit down with and have a nice chat? Someone whose life you haven't screwed up?
I thought that's what we were doing... I'm talking to all of you now, aren't I? Doesn't that mean anything?

Any reason why we should care about all your self inflicted prob ems?
I never asked any of you to care, I tried so hard to push all of you away...

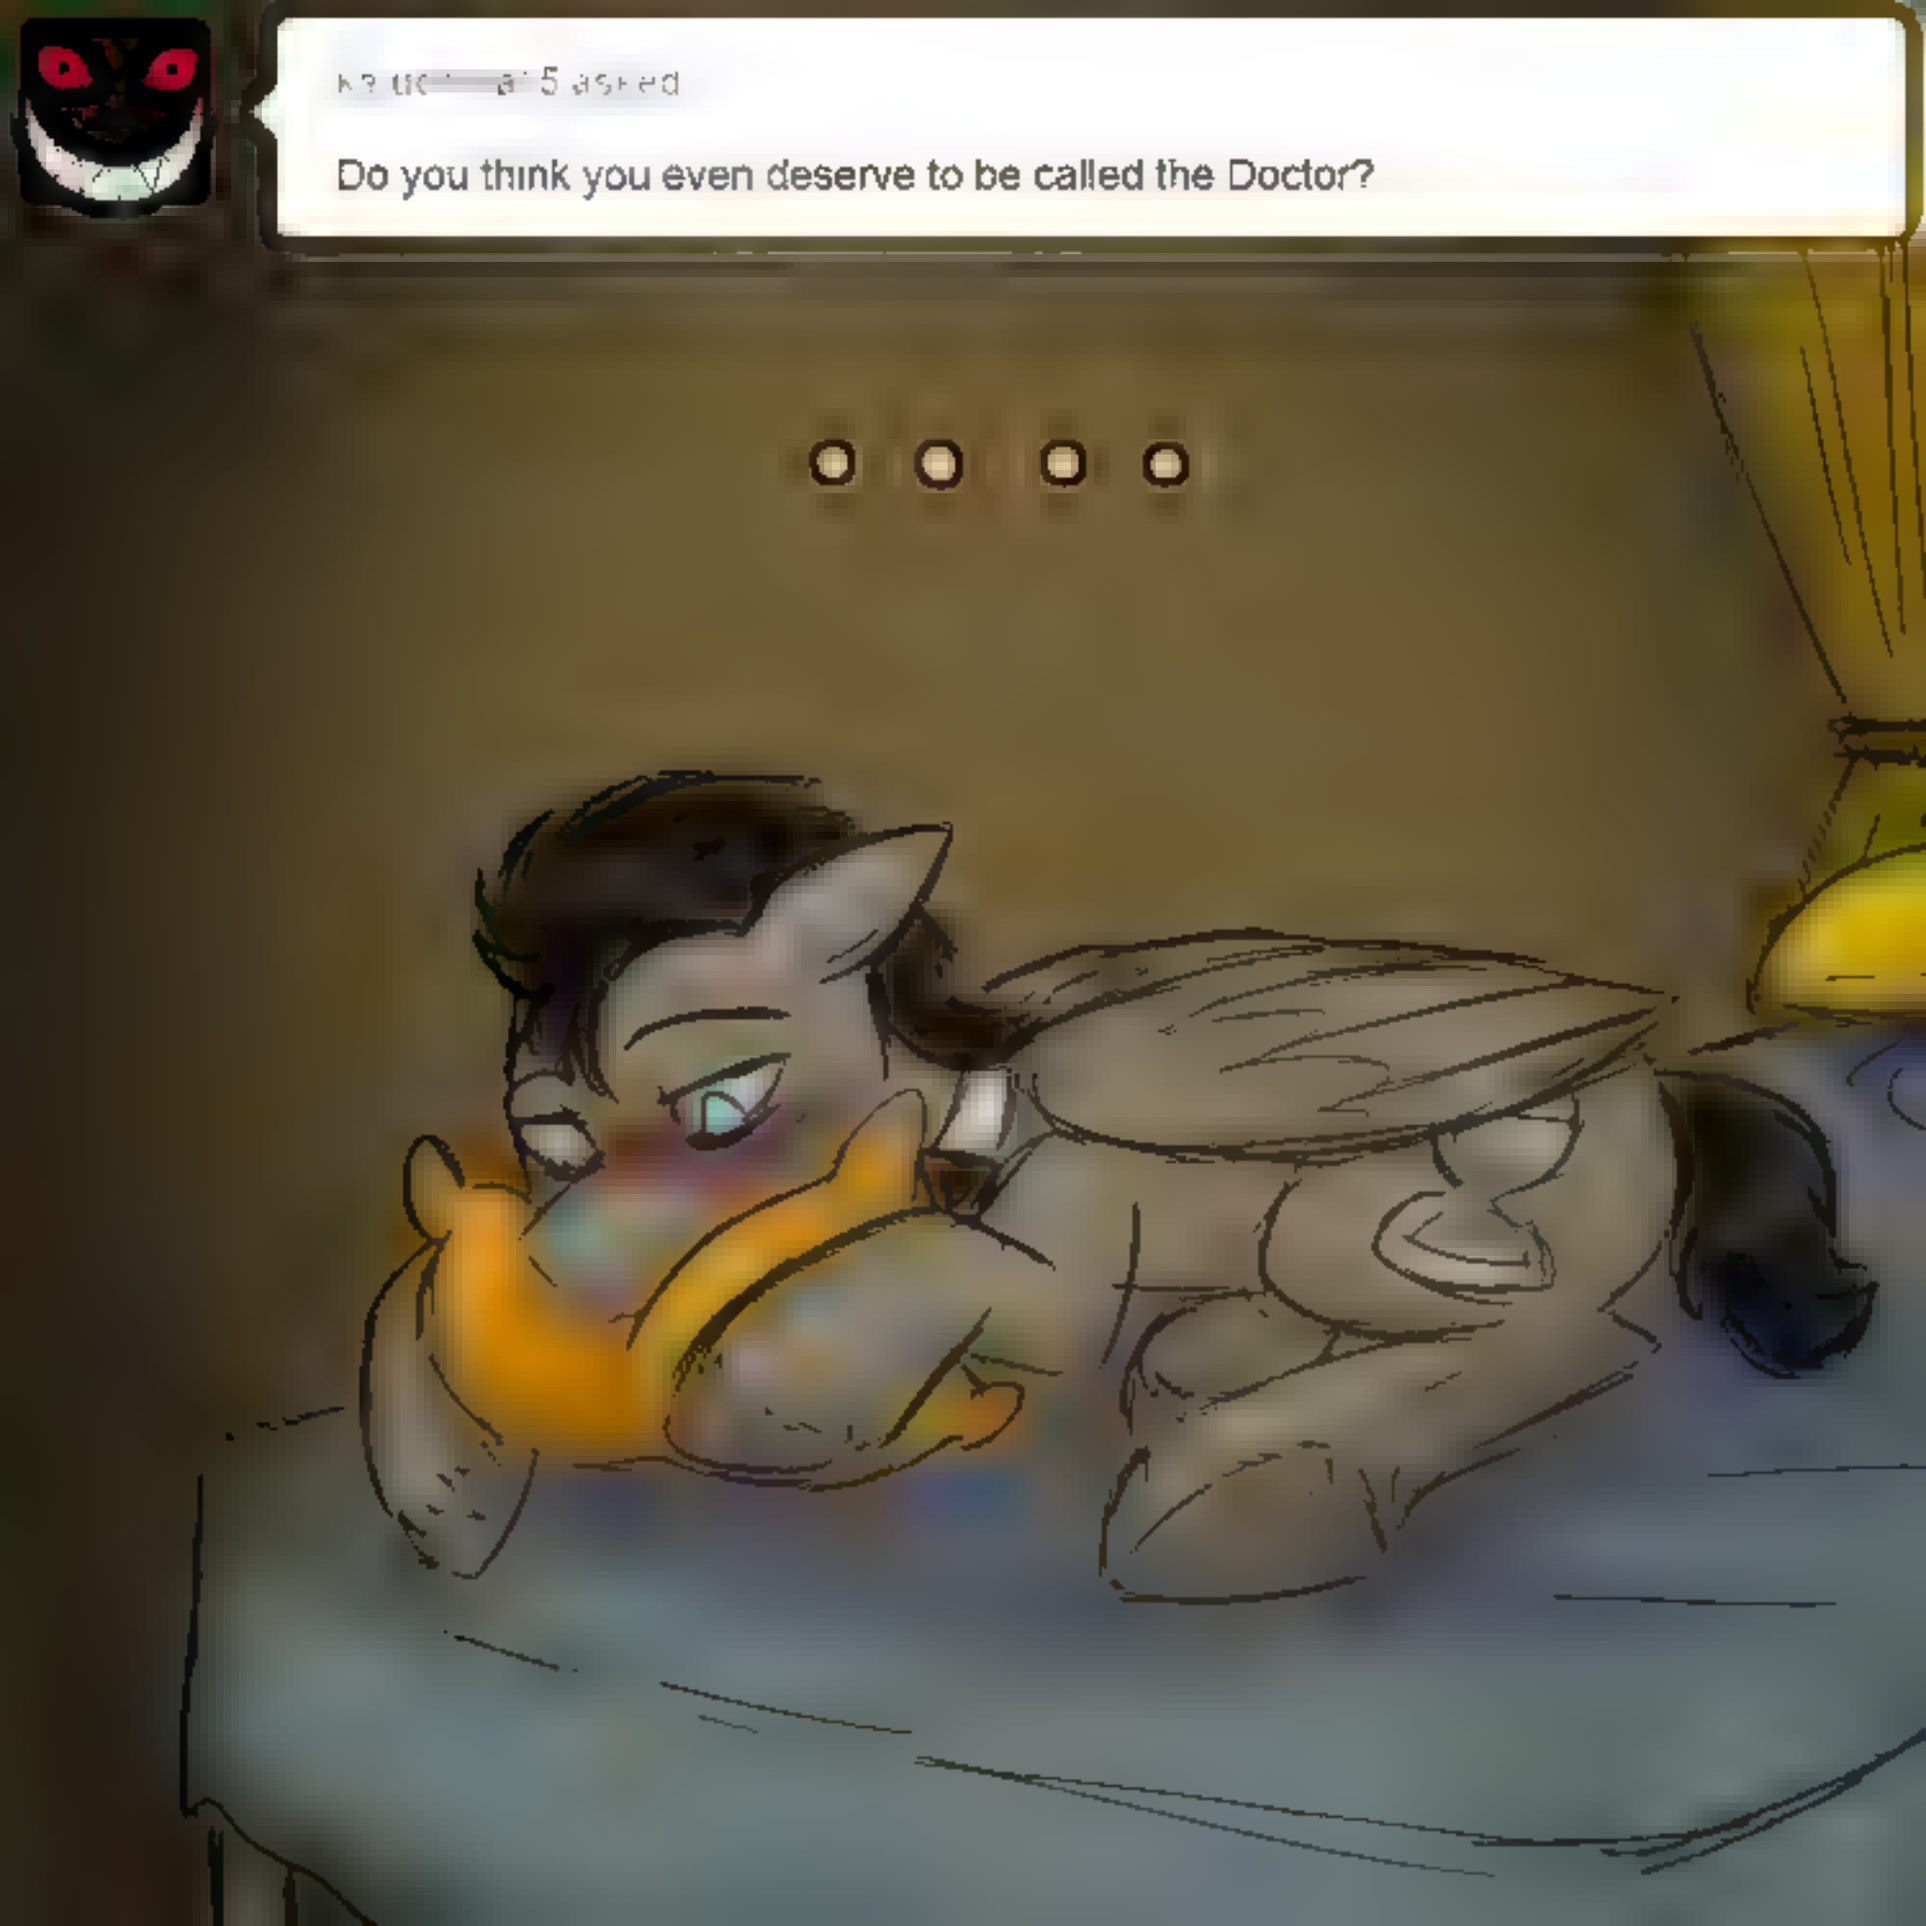
But no matter
how hard I tried,
you all kept talking
to me, no matter
what I said
or did...

I guess after a while I just...
I just thought I could trust you lot, that you would stay by me through thick and thin...

You're the closest thing I have to friends these days...
The only ones I can talk to...

I hope you realize that was all your fault. You're new attitude is doing the universe no favors.
I hid from all of you for over a month but I realized I needed to talk to someone again...
I guess it's pretty pathetic... I know...

Come on, Doctor, try to think! Remember all the good and fun stuff you used to do? The times where it DID feel good and they went right? Remember those moments they were worth being the Doctor weren't they?
Of course they were, but now...
Now I don't know...



5 asked
Do you think you even deserve to be called the Doctor?
o o o o

disorderparagon asked:

'Never cruel or cowardly' was the oath you took when you became the Doctor and you've broken both what makes you no different than the one who burned Gallifrey?

I'm not. I never was.
I told myself a pretty little lie,
that I was never him, that I
never did those things, but I did.
I did it and it doesn't matter
what I called myself.

"The name you choose, it's like a promise you make " Can you really call yourself Doctor anymore?
You know, you really don't deserve the name Doctor Because that implies your wise, or you he p peop e You do neither. Your just an idiot with an immense amount of power
But it's all I have left...

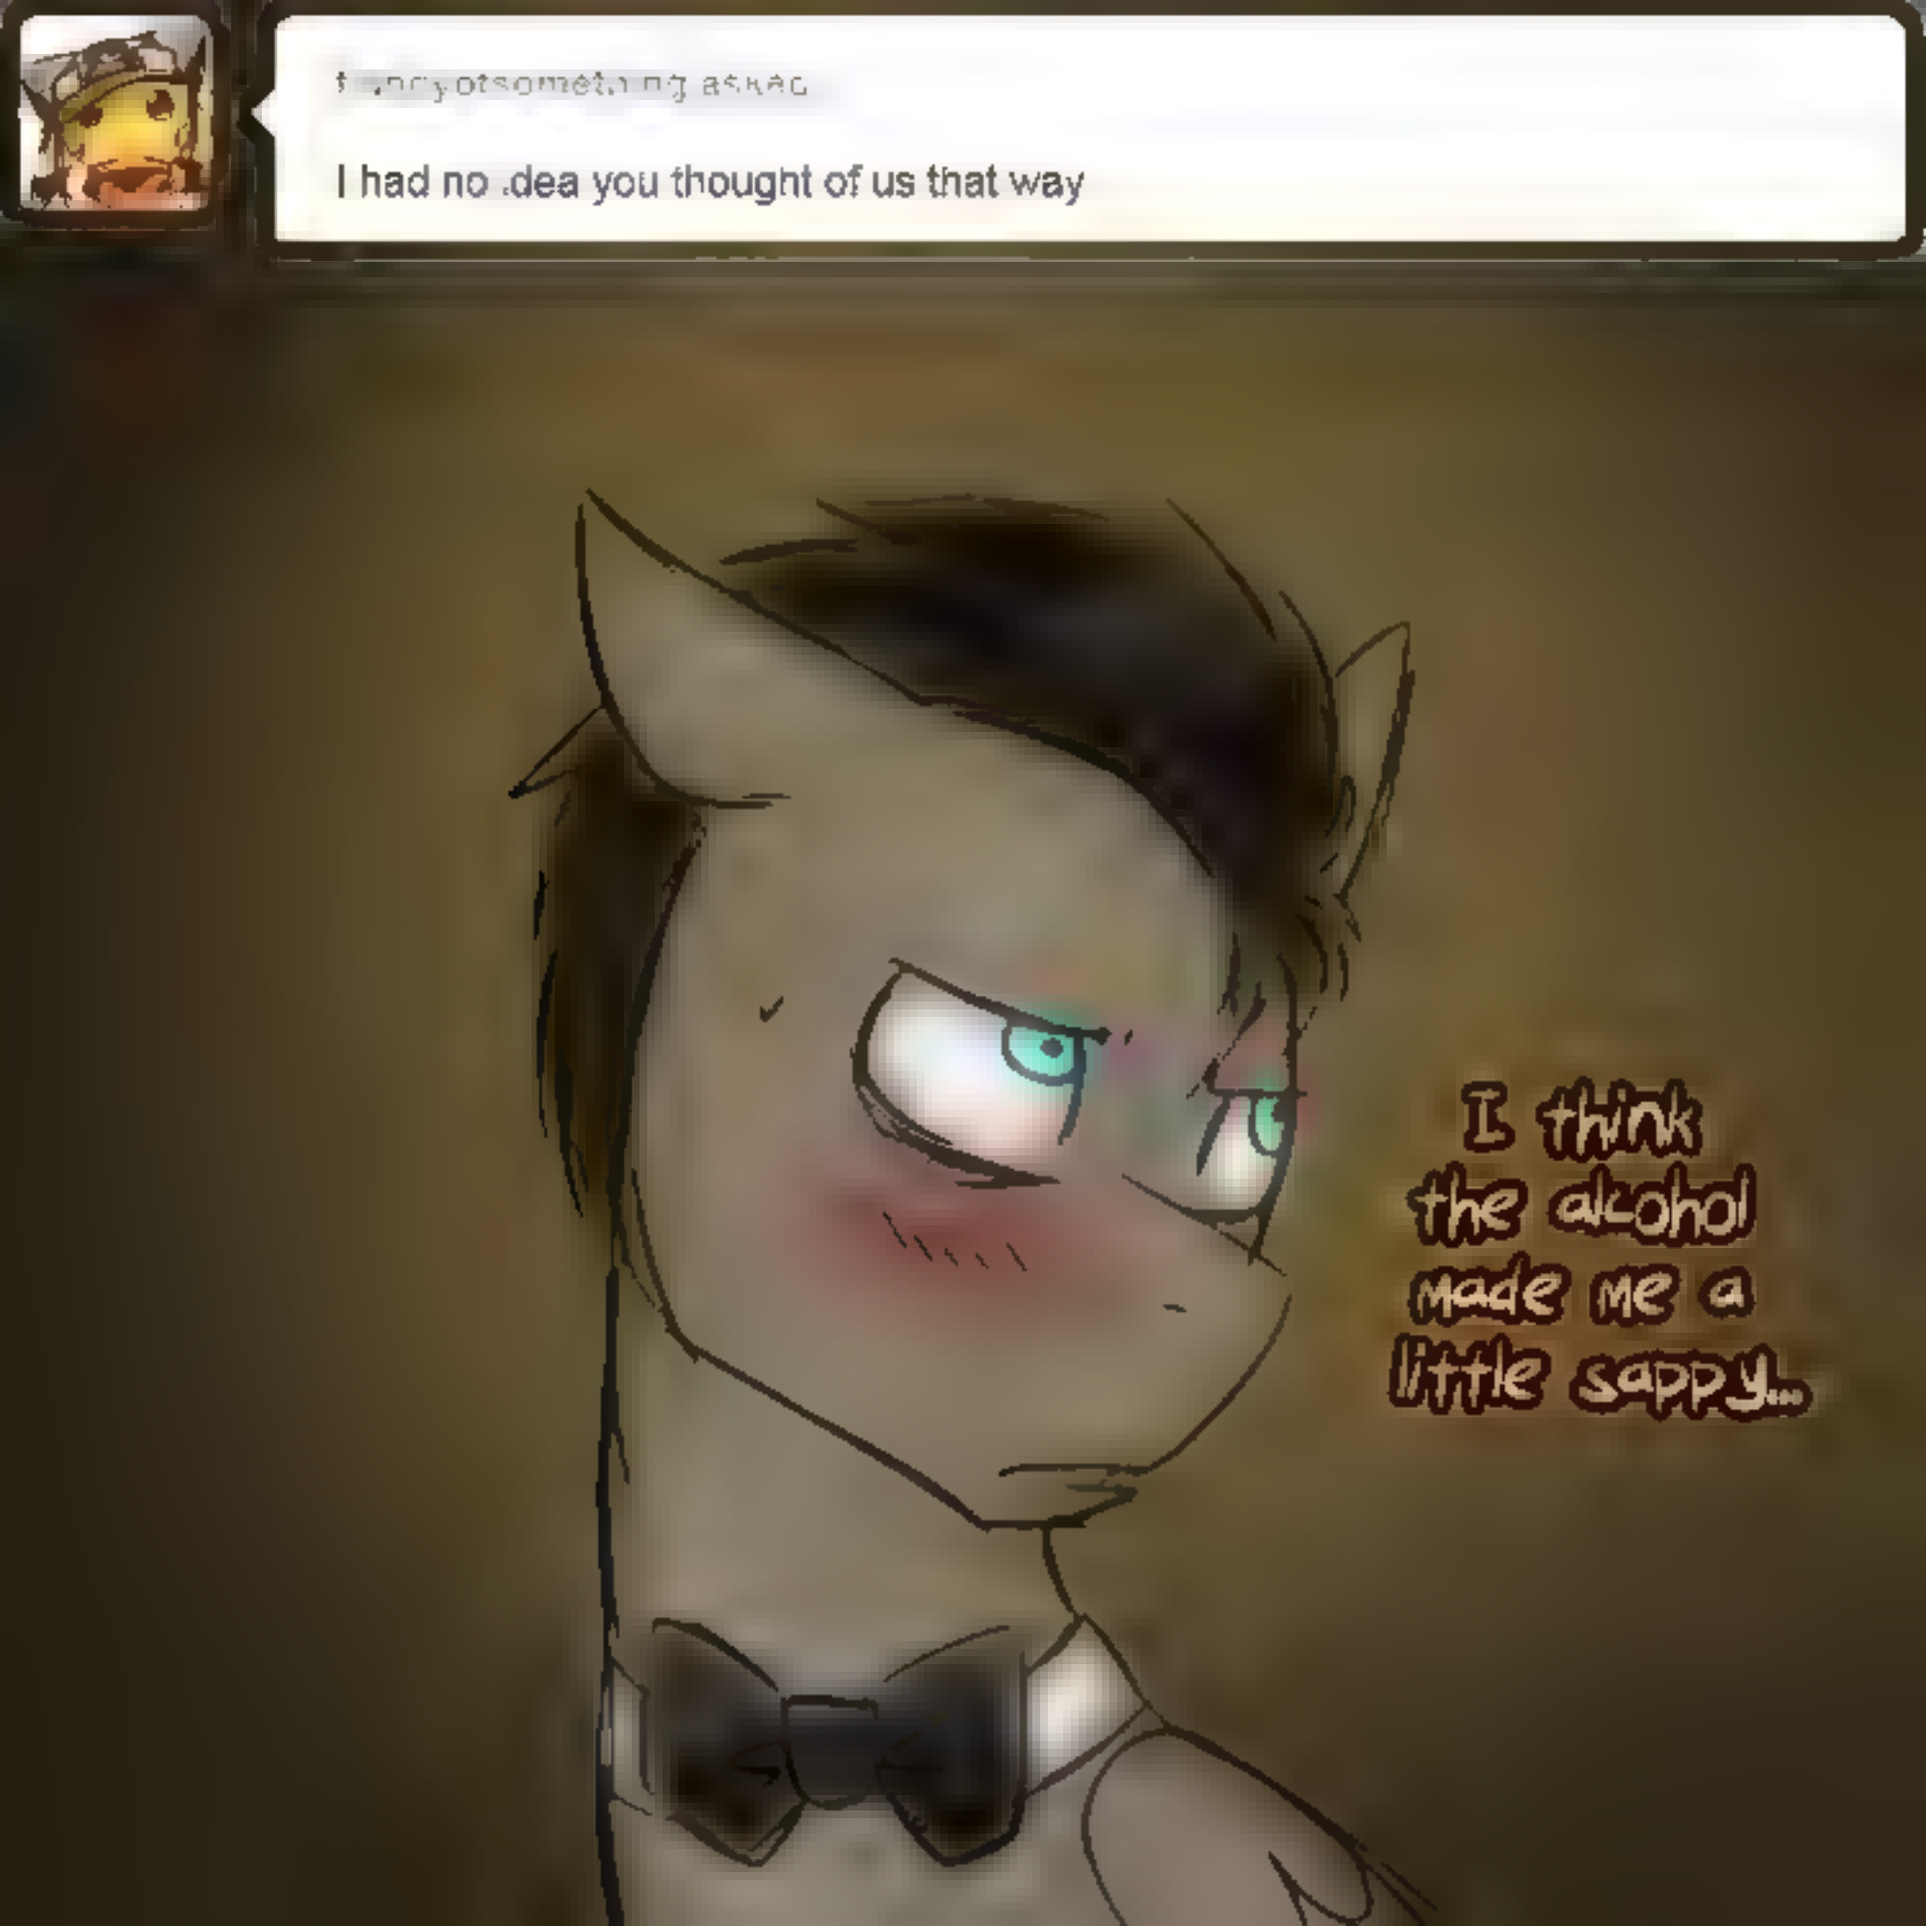
You say you no longer care about yourself, the universe, or other individuals. So what is there left? If you really had nothing to care about, you'd have killed yourself. so what's making you hang on? Give us something here. Doc.
Because it's all I have left, it's all I have left, please, it's all I have...

Look perhaps there is really one way for the pain to end, for this endless nightmare to stop It's simple, really, you just need to be honest and find the answer to this question Doctor Who?
Stop it, STOP... Don't take my name away... Please!!

So have you considered a new name? Not very Doctor-y anymore How about the Hermit? the Curator? Vale- no that's stupid
I don't want to lose who I am, there's so little left...
Don't kill him, please, oh god, don't kill the Doctor...!

I know I'm just a shadow, but let me pretend just a little longer...
Just a little more...

That's me. Edward Hyde.
Hiding from the kind
Henry Jekyll, ashamed
of who he was.
Hiding.
I'm just Mr. Hyde
and Jekyll is dying.



I had no idea you thought of us that way
I think the alcohol made me a little sappy...

You wanna talk Doc? Let's talk You don't know who you are, but who do you WANT to be? And don't say "anyone but myself", I mean what kind of person do you want to be? Who do you want to become?
Honestly, that's what I'm trying to figure out right now.

[redacted] asked

This might be a sensitive question, so try not to blow up again like all the other times. Now that you've learned to feel ashamed of yourself again, have you at all revised your opinion of Ditzy? Whether you still consider her a traitor or not, have you at least been able to admit to yourself yet that you've treated her monstrously?

I'm ashamed that I can't get over her and that even a mention of her STILL makes me angry.

Honestly, Doctor, I really don't care anymore We've been trying to help you and you don't do shit to help yourself You trust us? Then trust us to tell you that you're lower than you've ever been and you need to shape the fuck up
Fine then, what do you propose I do?

Doctor if we are so important to you then listen to us because we are just trying to help, go out there and be fantastic!
You might be pathetic now, but that doesn't mean you will always be this way How about you start turning yourself around a bit. I dunno, do something grand!
Baby steps, guys. Come on, if I'm at 'rock bottom' you can't expect me to get to the top of the mountain in one step. So try again.

Hey why don't you find a bar and get out a bit I heard there's a really great one in Stalliongrad Maybe you can get in a fight or something
First, I don't need any more violence in my life right now, thank you.
Secondly, I have my own bar which works just fine.

In fact,
good idea.
I could use
another drink.

Doctor Perhaps if you don't know who you are, it's time for a new name? You certainly don't behave like the doctor You're name is a promise is it not? If you have failed that promise then it's only right to choose a new name and make a new promise
Alright alright if ya insist on calling me anything beside 'Doctor' then jus' call me Hyde, I dun care anymore, ughhh...

D-doc! Sheesh, at this point I am worried if you are going to get a cohol poisoning! Isn't there something else you can do to occupy your time? Like I dunno, take a cold swim or something?
If you didn't notice, I'm a terrible swimmer... Usually I just kinda soak in the shallows...

They say getting drunk is like taking some sort of truth serum. It's never been you don't think you're cowardly. But that you do think that. It's not that you don't think of yourself as a failure, you do. And believe me when I say I have been there before. I think many have, but not to the level you have, Doctor. It can get better. It will get better. But only if you let it. The first step? Put down the bottle. and let yourself feel. Let yourself feel the pain and sorrow. It is the start.

... You're right, it's been a while since I did a scan... I think the results were shaky last time...?

Hard to remember, that was... Over a year ago, I believe...

Try and look back on moments when you felt something that wasn't you ,solate what you felt, and how you reacted Was there something swe ing up? Or is it nstantaneous when you lose control of your actions? know its hard and I can't pretend to know what it feels like but if you can figure out what causes those moments and can catch yourself feeling that you can take steps into avoiding those situations and maybe even get better You've fallen but there still might be a way to rise up
Okay doctor first just calm down And NO ALCOHOL! Now I think you should try to remember first time when you started to fee different remember what happened Don t worry we can help you solve it it s what friends do
Listen Doctor You need to remember how this all started Your change started when you discovered the truth We need to ook back nto it if we are going to be able to help you Maybe not eave the TARDIS but perhaps search through the arch ve to find out more?
Was it the truth? No, no... I think I've been feeling sick even before that...

THAT PATHETIC BANTER,
that wonderful fighting spirit!

That is the thing "Hyde" We won't give up. We're stubborn and persistent, just like the Doctor Even if the Doctor dies, he'd still be remembered as a hero by many
YOU ONLY SET YOURSELVES UP FOR DISAPPOINTMENT IN THE END-
HA HAHAHA...

megapaperbows85 asked
Doc p ease,don't get trough this!This is NOT the Doctor I know!Please!!
No please! We will NEVER give up! Snap out of it! We know you're still there Doctor! FIGHT HYDE!
NNGGHH!! YOU'RE NOTHING, THE DOCTOR IS NOTHING, I'M NOTHING-!

AAAA

ANANTA! Doc s n tro l el s red r ea y bad! Can you do anything? Be
careful he m g t h rt o

Ananta! What's going on!? Is he dying? He looks like he's regenerating?
He's not dying, he's just trying his best to expel the magic inside him. But it's not working as it should. He also exposes some of his face with it.
Why are you collecting all of that regenerative energy, Ananta?
Keep it safe. Keep it protected. Some day it may be vital.
So Ananta, since I doubt the Doctor will be able to tell us about the results in his current state, do you think there's anything worth noting about the results from the diagnostic?
I wish I knew. I only recall one other incident such as this one but I know this is not the same thing.

Ananta, ye saw the poor bastard Ye got enough of that artron energy to make ten of the bugger, so just k ll him already
I could never do such a th ng n add t on there is a r sk that should he regenerate in th s state t may become permanently engra ned in to his be ng Keep ng h m al ve no s vita to assure a chance of recovery

Ananta I th nk you should do someth ng. like restrain h m.
Anata, I hate to suggest this, but it might be a good idea to restrain the Doctor the next time he takes the test
Anantal You need to restra n him! If he runs loose in this state he could break something important!
Whi e I am aware you mean well the risk to my shell is too high I am merely glass and glass breaks so very eas ly

Nanty, dear, how could you let him out on the times things went way too bad? Aren't you supposed to know what will happen before it happens?
It was never my intention I tried to protect him but I am having less and less control of where I take him
so ananta do u regret taking the doctor to discords realm in the first place? or this suppose to happen for chain of events in the doctors life so he can learn something from this if the doctor ever figures out whats wrong with him some how?
I did not take him there It took me And now it is too late to change

Ananta, dear, why are you doing this? People are supposed to change It's how we get stronger more powerful You don't want to hinder the poor stall on do you? With the right push he could rule all Creation And you, Ananta, would be his queen!
Ananta, what do you think you're doing? You should let him choose who he wants to be, don't be selfish Or do you want him all for yourse f?
HOW DARE YOU! THIS WAS NEVER HIS CHOICE!

"Ananta. Why should we help him when he has been causing so much more pain to anyone who tries to help him out of this state? What reason valuable enough would make us want to help Him after he has caused so much suffering? Even to someone as close to him as Jack You care for him even when you have been witness to all he has done?

Because [illegible] reason [illegible] because of these actions. Because I know [illegible]

Um, TARDIS Amata whatever you're going by now I hate to break this to you but I don't think we can help him. He just shot one of his best friends, and probably one of the only people who could help him directly at this point. I mean I want to do something but If he wouldn't let Jack help him what good are we?

[illegible] are the ones who know things

[illegible] you are safe from harm. You are the ones he trusts

What's that, Ananta? You want us to help h m? But that's what they've been try ng to do! For day after day after day That's the prob em isn't it? No one can help h m He doesn't want it If he did, he'd have let us help h m even helped himself by now Bes des, aren't we the ungrateful ot that always mess things up? Looks like he was right He looks pretty messed up.

If he d d not want he p then why s he speak ng th al of you? Why has he not disab ed communicat on? Perhaps he does not know hy but deep down he has reasons

Please, understand If he doesn't want to he p himself then there's nothing we can do Forc ng him to do anything against h s will won't solve the problem, and judging from earlier encounters, he's too stubborn to listen Hm, perhaps if you cou d give him a nudge to do someth ng he'd listen He does seem to only care for you now

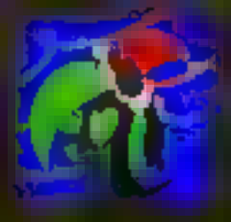
You must not th nk so ow of yourse ves You have a done so much and he ou d be far m re ost thout you He is fr ghtened and confused and you gu de him

[illegible] asked

Ok, you need to monitor Hyde's every blackout doings. What he does. What he thinks. You need to understand him

[illegible]

I leave this task to all of you, the Doctor's last hopes



Maybe Ananta should lock up the rest of the alcohol

I shall expel all of it post haste and find other activities to occupy him

Ananta isn't there anypony that you can summon or let into the TARDIS?
It may be a bit unorthodox, but why don't you try calling upon other regenerations/parallel world versions of The Doctor, Ananta? Every time you get several Doctors into the same area, miracles happen
I don't have enough energy to continue my communication, but I will do my best to find him what he needs. As I always have

You'll never see it. the thing crawling inside you like a parasite Eating away at your sanity as you sit there and rot Get up, Doctor!

[illegible] asked
This might sound weird but Do you remember what happened before you passed out?
[illegible] asked
So Doc, what is the last thing you remember?
I passed out?
I... I don't remember...
I was...
I was testing...
something... Then...?
Then...
I don't know...

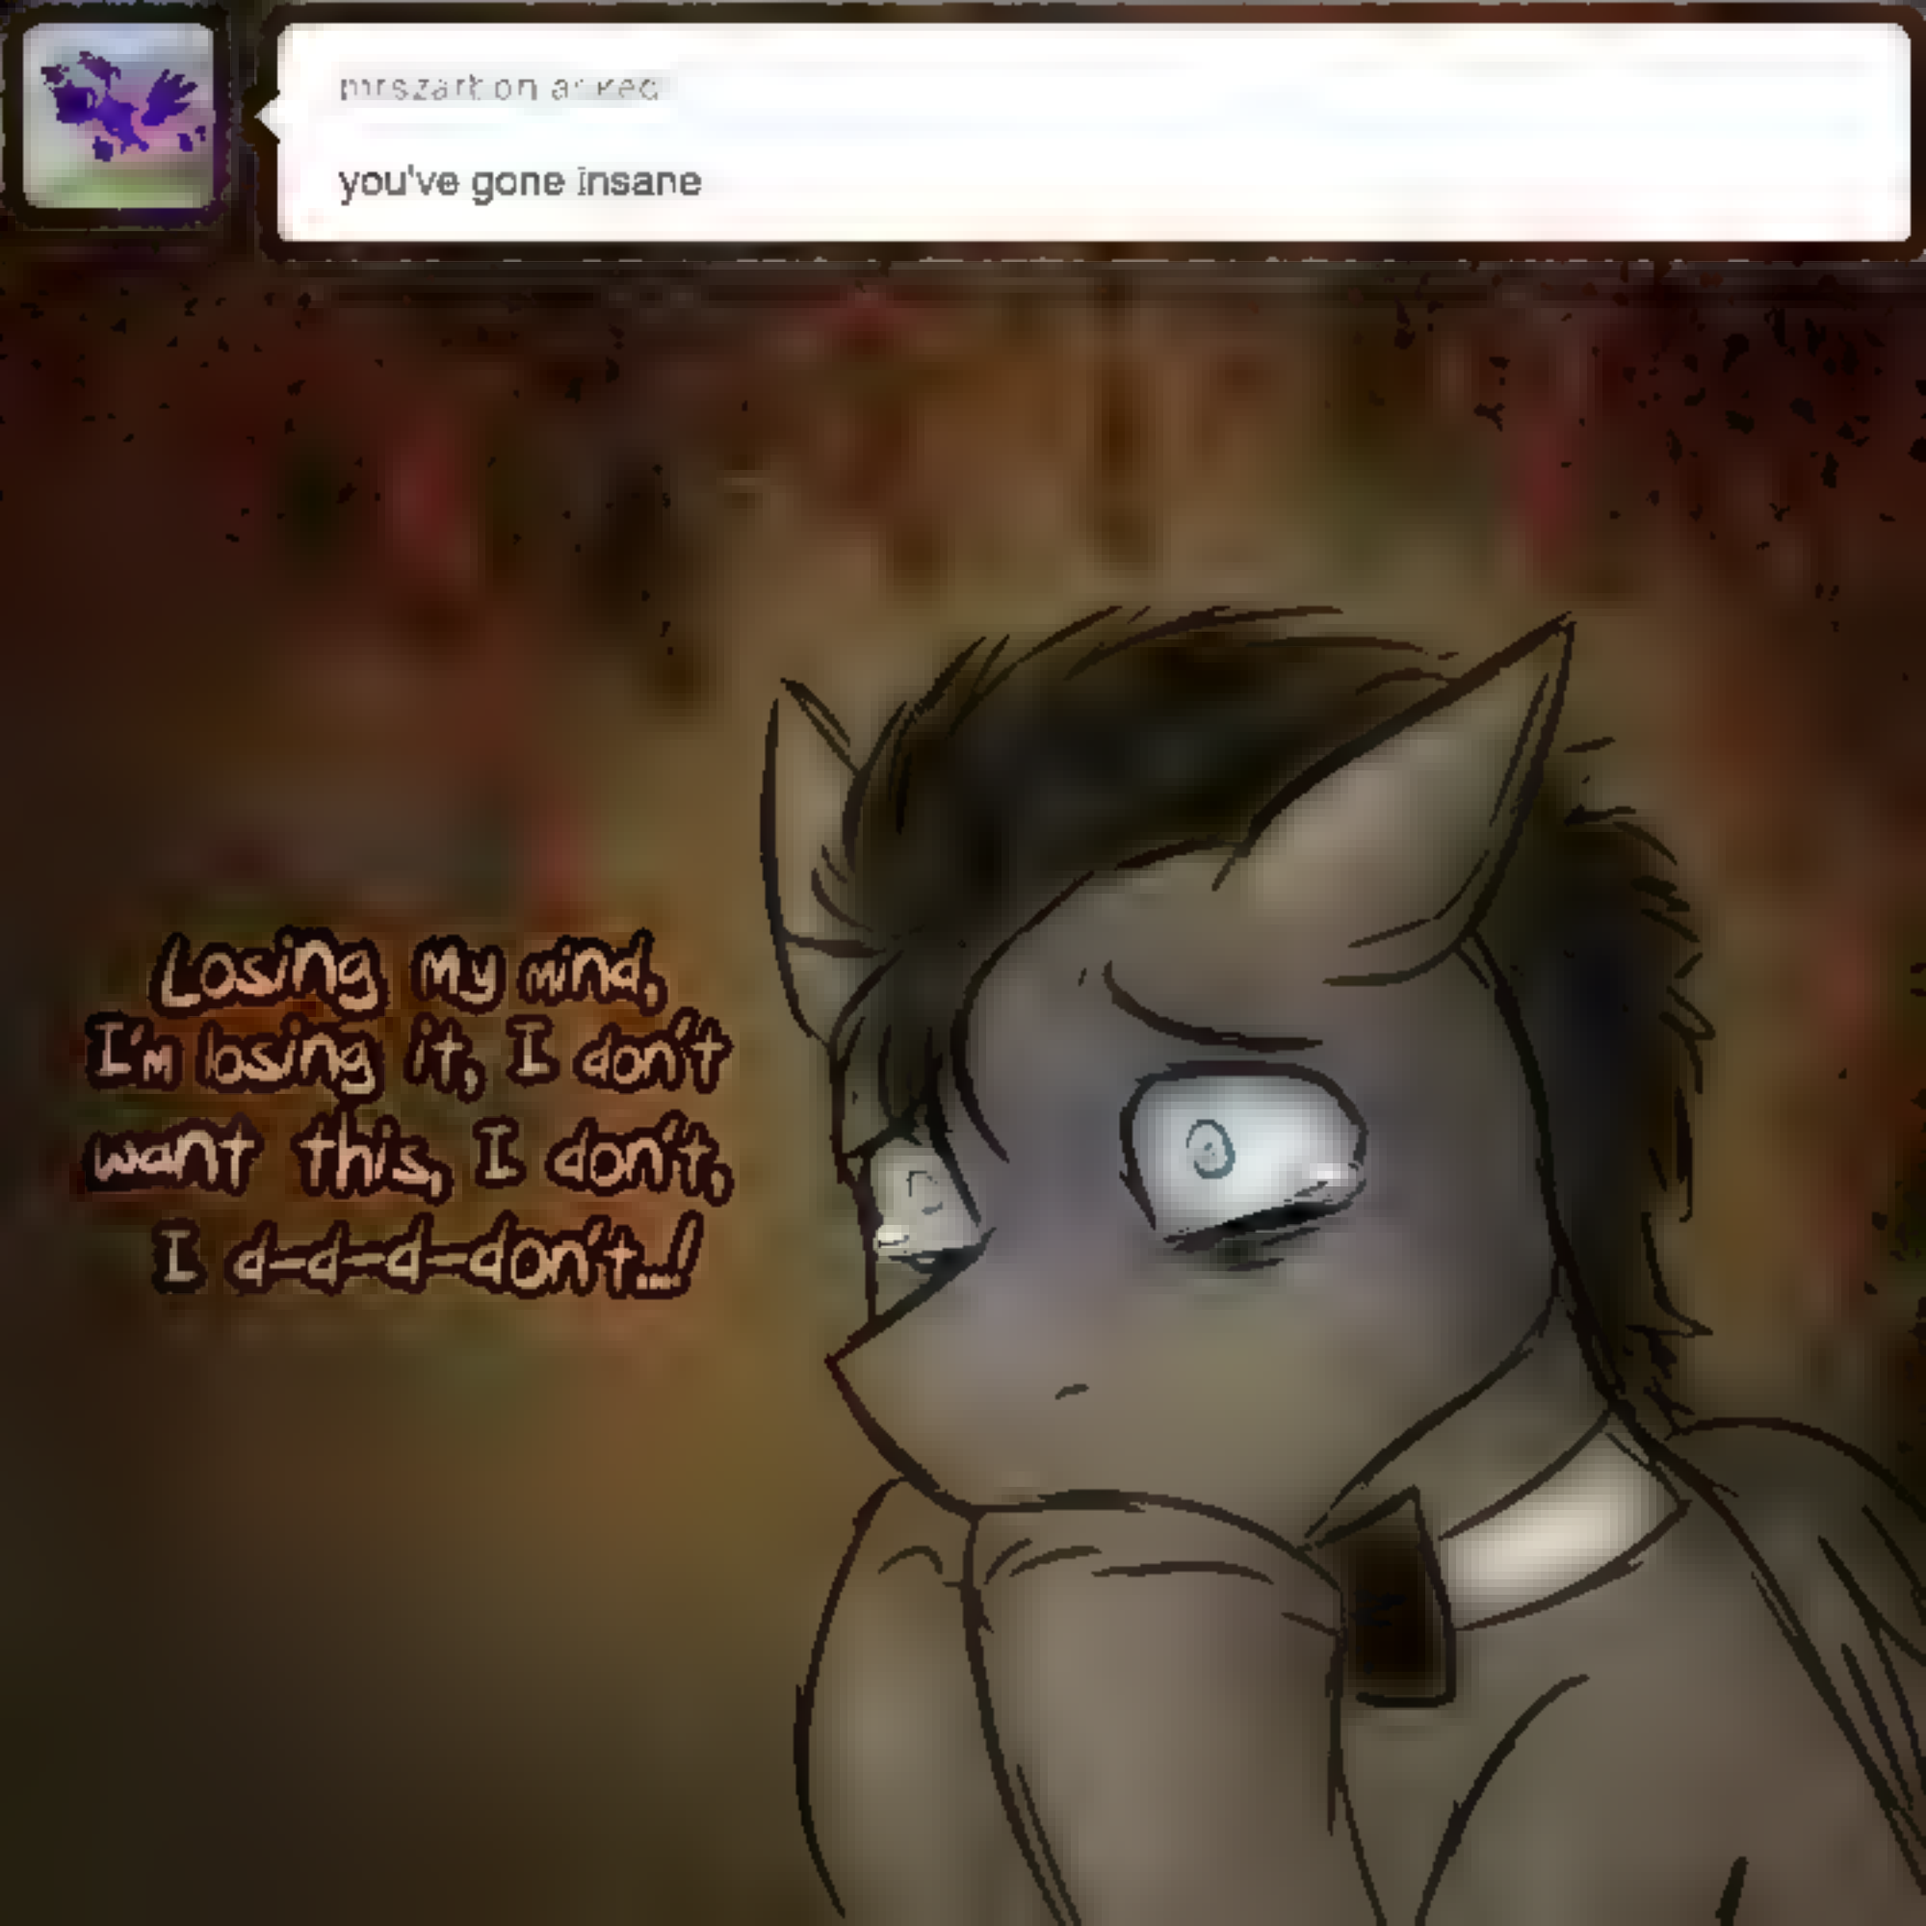
Doctor, how much do you remember when Hyde took over? Was there anything like I don't know, drumming? I just have a hunch
Nnngh all I know is my head is absolutely pounding... Must be a hangover...

Oh and .what were the results for that litt e test you d d?
So, Doc. how do the results look? Maybe a bit short? And ripped up?
O-oh, the test, yes, test! I was doing that..!

I'm no expert, but I don't think that it's normal for the test results to be like that. or ripped up You're going to need to be cautious If there is
sorts in your head, it's not going to
hat easily
What...?
What did this...?
When--?

topaz asked
Can you read the results? If not try to tape them together
asked
Is there anything readable left from the test? Seeing how it got ripped apart
I... I don't even remember what I was testing for... Whatever it was, it was sporadic...
Maybe my alcohol levels...?

Do you feel the darkness taking hold, Doctor?
Something is there, something is wrong... I can't remember, I can't, everything is so strange...



you've gone insane
Losing my mind, I'm losing it, I don't want this, I don't, I d-d-d-don't...!

Have you ever considered hypnotherapy? You might find that a suggestion will make you feel better
I need help, I need help, I need something, I need to see someone...
M-make an appointment...
Yes...

Doc, you're a smart guy, you'll figure this out
I'm the Doctor.
I can do this.
I can get
through this.
I have to.
ROCKSWAY
The Doctor
always pulls
through...
Always, always,
always, always...

their's only one way kill yourself and regenerate
I don't think I can...
I don't know what to do any more...

Doctor just calm down Take a deep breath and try to relax It's okay You're making progress Admitting that something is indeed wrong and needs fixing is a very good start

Wow, you actually went through with seeing a therapist? Dude im proud of you!
If it's a good thing, then why does it make me feel so pathetic and helpless?

Dann
dann porter asked
So how did your trip to Rorschach go? Is it helping Doctor?
ask-shrink-armod asked
How do you think the session went?
I don't know, I feel awkward and exposed, I don't think he'd be able to understand the magnitude of my problems but...

It's nice being
treated like a patient
and not The Doctor.

digi-pony-of-destiny asked
Honestly I can't believe an mere Earth Pony was able to hypnotize you Doctor Any idea how that worked?
He didn't, all he did was guide me. I hypnotized myself while he used the power of suggestion.
It's like meditation with a tour guide.

Reminds me of the time I taught Freud one of my own hypnosis techniques.

sanguinedrop asked

Speak ng as someone THOROUGHLY insane and enjoy ng it why bother with a therap st? Surely somepony as dist ngu shed as yourse f has no need of a second op nion For Equestria s sake all these people are cal ng you a DOCTOR Why should you TRUST another opinion anyway?

Because I can't trust myself right now.

n g nturmoon asked
You need to stop drinking and visit that psychologist more often. He may be the only one who can help you now. Remember that we are only voices. Doctor. You need a real pony to help you. before it's too late
I promised I would see him more, but I think I'll stick with 'house calls', I hate stuffy offices anyways.

asermal2 asked
Are you at least feeling any better since your falling out with Jack?
Ugh.
Don't kid yourself, I still feel like shit. I'm just distracting myself at this point.

jan torte asked
I know you're having issues with who you are Doc So how about you tell us a bit about the t me you were sure who you are

Try th nking about the happiest moments of your ife Think of al the goodness that s happened Stop dwe l ng on the negative
That doesn't work. Thinking about who I was just reminds me of who I'm not.

heysoulnatsunenod asked
god damn it doctor man up your acting like the master
Oh, here we go again, is 'The Master' the only insult you can come up with?
I'm fairly sure he doesn't sit around making an effort to do nothing.

ha ge 20 8 asked
I know I'm going pretty far back but how do you know that the Caves of Truth aren't really just one big lie? I mean if it was something that was made of pure lies wouldn't that also make the name lie? I hope I'm not being too confusing but just think about it If it was really a cave of Lies wou dn't it also have a name that s lying and says it's the Truth? Lies exist purely to make us think it's the Truth even though it's not
I was prepared to consider that, but there were too many facts to deny the Truth.
I'm sorry, but nothing can convince me otherwise.

Hey, how do you exist? Last I checked wasn't your bowtie loving self your last regeneration? Did you pick up spares somewhere?
o o o o

enerpr[illegible]e asked
Hey, how do you exist? Last I checked wasn't your bowtie loving self your last regeneration? Did you pick up spares somewhere?
I don't know.
I have no idea how I regenerated
or if I even can any more.

So just gonna stay out of it all No poking your nose into anything Just gonna drink, s eep, and ignore everything Yea like that worked the last time!

Doctor, you can't just stay in the Tardis forever! I'm sure it's got lots of attractions but infinity is even longer than I think you realize
I wont leave until I know it's safe to.
For my sake and... for theirs.

Just something I want to mention. A long time ago, you mentioned something called a perceptual barrier. They were used to hide memories. If you think of a memory it becomes harder to remember because the barrier becomes stronger right? Could some specific 'trigger words,' for lack of a better term, also trigger a strengthening of the barrier?
Why, yes, if those words are associated with whatever is being covered up by the barrier it usually causes a stronger reaction to blocking it. Why?

Go see ditzy maybe she could help Or find jack
Will you just DROP IT already!?

Whats with your weird Tie? Its like your a vampire now

ask-scarlet-love asked

Did the phantom of the opera give you that collar?

Ha-ha, very funny.

Mudrave asked
Fancy new neck wear Doctor! Bit black though Why don't you go for something more colourful? Maybe that'll cheer you up?
Black suits me, not because it's dark and brooding, but because it represents the protection of one's emotions, giving the implication of self control and authority.
It's also the color of elegance and sophistication, of mystery and sexual boldness. It's the preparation of the unknown and a concealing veil of safety.
Besides, it matches my current pallet.

ask-gamer asked
That looks awful on you. Go get a haircut and find something that suits you
shamrockcat asked
If you don't like your haircut, get a new one
I am NOT getting this any shorter than it already is!

dasrandomperson101 asked
So now you've found more suitable attire to match your mane what exactly is your next plan?
galactic-grasshopper-the-brony asked
Wow doc that looks nice on you! So now what will you do?
I'm going to continue to look for things to occupy my time. Consider it quality time with my one true lady.

Taren 9 asked
So Doctor if something WAS keeping you from remembering things how would you get rid of it?
I don't know? Either one hell of a jolt to my memories or occupying my thoughts with good things?

azureplazestarz asked
Doctor are you sure hiding in the TARDIS is the best decision you could make at the moment? Why not give socializing with normal ponies a try? I'm sure it couldn't be THAT bad
So far my previous attempts have lead to stress, pressure, violence, and unsatisfactory sex.
When I can't control myself, it's not safe.

biohazard99019 asked
When do you th nk you'll be safe to the others and yourself?

digi-pony-of-dessun, asked
I really hope you didn't go out and get more alcohol after Ananta threw it all out
SHE WHAT?!

WHY WOULD YOU DO THAT?!
I NEED MY BOOZE, MY BAR IS ALL WRONG WITHOUT IT. WHHYYYY??!

Ananta's worried, Doctor .

You should really show Ananta some appreciation. She's been very helpful and patient with you ately. I think she deserves something nice in return

A little off topic but, I think Ananta is beautiful! Wouldn't you agree?
She is, she really really is, she's my TARDIS and she's always been here for me, even if I'm just a big idiot half the time...

Hold on,
I have an idea to make it up.
Just you and me,

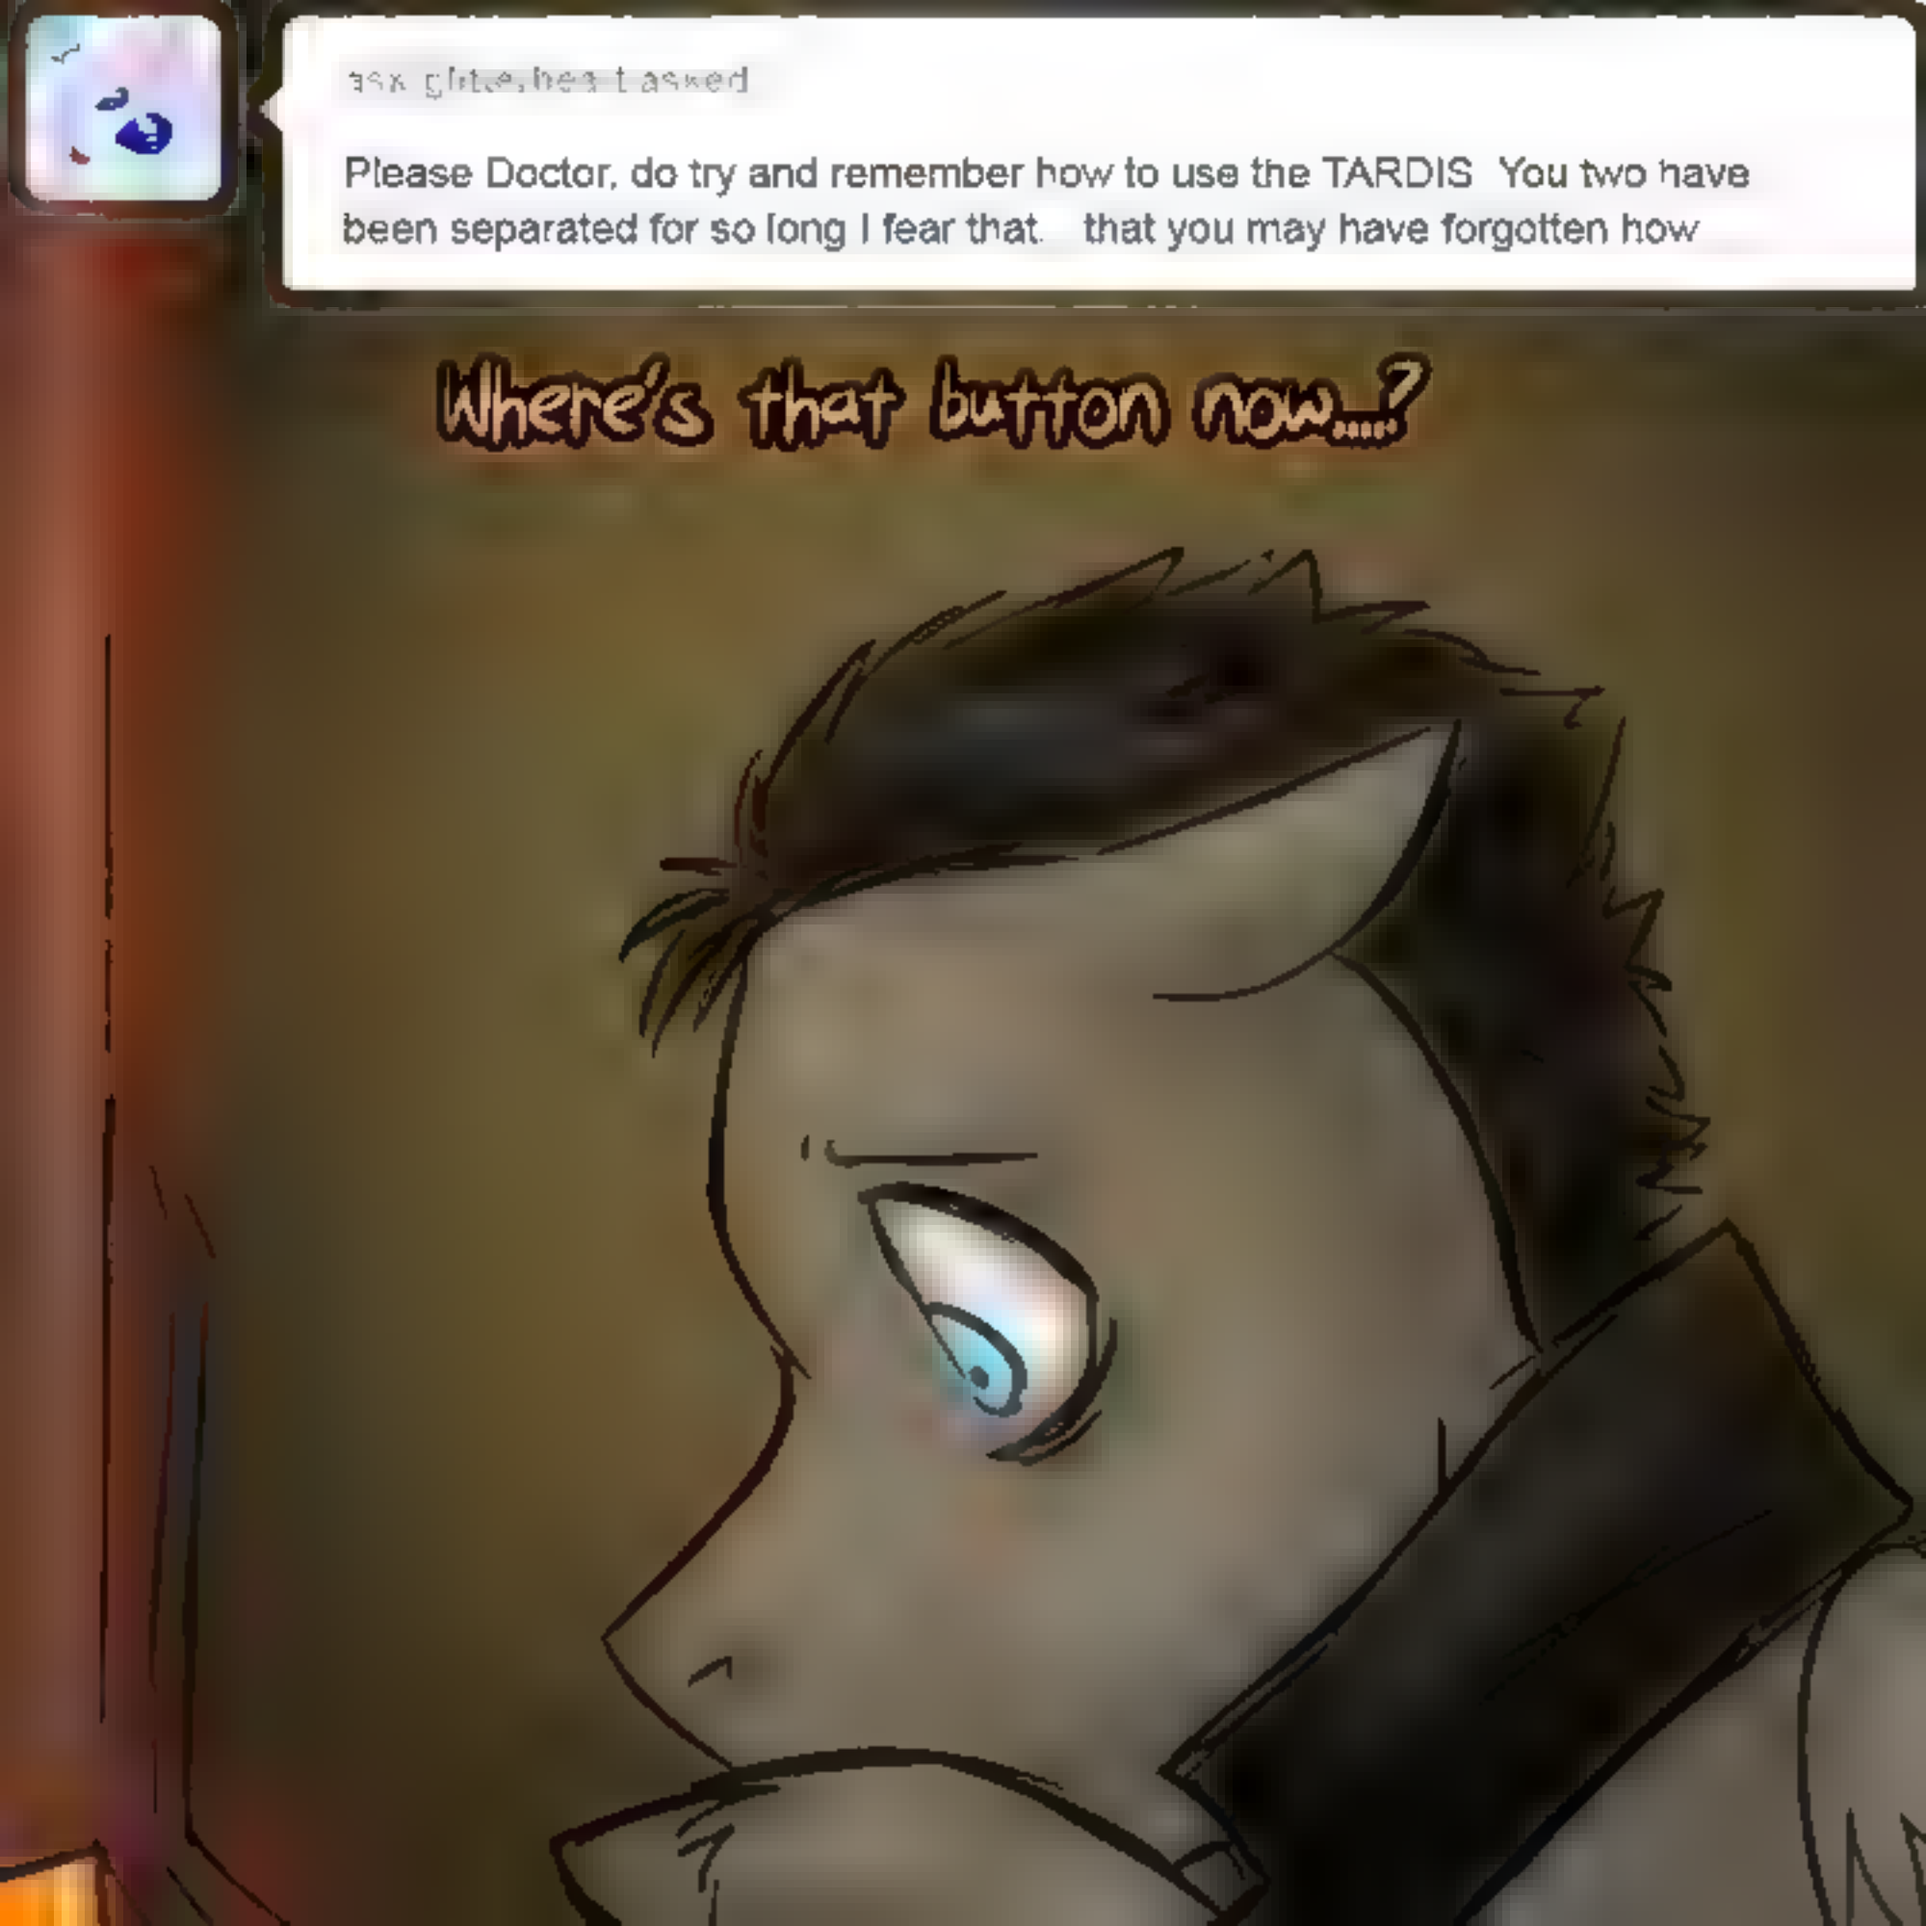
Just wait there!



ask glitchheart asked

Where's that button now...?

ask-s aya-pony asked
